Read-a-thon 2017

From March 20th to April 13th, we want to encourage our students to improve their reading by spending a lot of time practicing and being encouraged with little rewards as they progress toward both their class and personal goals.

In addition to improving a student's reading, we would also like to improve our library. We are hoping to purchase a library computer, scanner, and a computer program to electronically inventory and circulate our books. We would also like to add to our book collection.

Please help by encouraging your child to read and collect sponsors.
